

URGES A CRUSADE AGAINST AHMED

SENATOR TURPIE MAKES A STRONG SPEECH.

The Situation in Turkey Reviewed by
the Indiana Legislator—Financial
Question Also Discussed—Proceed-
ings in the House Rather More
Peaceful.

Washington, Jan. 29.—Foreign affairs
and finance occupied the attention of
the senate Tuesday. The session of
the house was brief. Contrary to gen-
eral expectation, the diplomatic and
consular appropriation bill precipitated
no discussion whatever. None of the
foreign complications was even men-
tioned, and the bill was passed in less
than an hour. The appropriations
carried by the bill are about \$100,000 in
excess of those appropriated for the
current fiscal year.

In the senate Mr. Turpie (dem., Ind.)
in presenting a petition concerning
Turkish massacres, said that in the re-
cent calamities the Armenians were
charged with no revolt. They were
charged only with being Christians. Their
only crime was that they claimed
and exercised the right to worship the
Divine Creator of the universe. The
time has come, said the senator, that
there should be an official notification
to Turkey and to the Mohammedan
church that there has been a decadence
in their power to proselyte with the
sword. "We have already sent a mes-
sage," said the senator, referring to the
concurrent resolution, "but the blow
should follow. The message should be
followed by a shot which would go
crashing through the grand seraglio."

The senator urged that it would be a
glorious day when the destruction of
this Turkish power was brought about.
He would have the messages and de-
mands sent not only to the sultan, but
echoed through the mosques. It should
thunder until these murderers learned
of the power and advance of Christian-
ity. The senator urged that the Chris-
tian world might now be called upon
to take up another great crusade, driv-
ing back the rule of Mohammedanism,
and establishing the rule of Christian-
ity.

Mr. Allen (pop., Neb.) gave notice of
an amendment to the pending silver-
bond bill, depriving the secretary of the
treasury of the power to issue bonds,
unless the authority is granted by con-
gress.

Mr. Call's resolution on an investiga-
tion of an arrest of Eugene V. Debs
came up, and Mr. Call urged immediate
action, saying that the laboring inter-
ests of the country desired the inquiry.

Mr. Hill (dem., N. Y.) offered an
amendment, directing that the whole
subject of contempt of court, as en-
forced by the Federal judiciary, be in-
vestigated by the committee on judi-
ciary, and that a report be made as to
what, if any, legislation was necessary.
Mr. Call dissented to the amendment.
He spoke vigorously upon the indigni-
ties and wrongs of Eugene V. Debs,
because he had ventured to express
opinions contrary to those entertained
by a court. The senator said this in-
quiry was vital to the preservation of
civil liberty and the inviolability of the
personal rights of the individual.

Mr. Allen severely criticized Judge
Woods, who committed Debs. The
resolution finally went over to allow
Mr. Thurston (rep., Neb.) to address the
senate on the Monroe doctrine.

At 2 o'clock the silver-bond bill was
taken up, and after some skirmishing
between Hill and Chandler and Jones
(Ark.) in a vain effort of the last named
to have Thursday at 2 p. m. fixed for a
vote, Mr. Jones said: "Then I give no-
tice that on Thursday I will ask the
senate to remain in session until this
bill is disposed of, and I ask all sena-
tors to come prepared on Thursday for
such action."

Mr. Wolcott (rep., Colo.) said he
hoped the physical test of endurance
would not become necessary as a means
of securing a vote. He pointed out that
the friends of silver had been accused
of opposing legislation. Now it was the
senators from the East who interposed
opposition. Mr. Wolcott strongly
urged that the physical all-night strug-
gle be not resorted to.

Mr. Clarke (rep., Wyo.) then ad-
dressed the senate in behalf of silver.

Mr. Voorhees (dem., Ind.) said the
country was in the midst of a revolu-
tion brought on by those who plotted
against silver. It was this class which
brought on panics, destroying the par-
ity of the metals. The men who demon-
etized silver in 1873 were, said Mr.
Voorhees, "revolutionists." They
sought to overcome the constitution,
the laws and the policy of a century.
After tracing the constant use of silver
since the government began, the sena-
tor declared that the token of "sound
money" applied to gold was a fraud.
Silver was as much sound money as
gold. It would effectually stop the raids
on the gold reserve if the demands on
the treasury were met by silver pay-
ments as well as gold. Mr. Voorhees
sarcastically reviewed Mr. Sherman's
financial record. Under his leadership,
the senator declared, the republican
party had broken faith with the sol-
diers, paying them with a depreciated
paper money. The Ohio senator believed
in "sound money" for Wall street, but
not for the soldiers. Mr. Voorhees de-
clared that the gold withdrawals of the
last twelve months were part of the con-
spiracy to compel the issue of inter-

est-bearing bonds. Since the demon-
etization of silver panics had become
frequent. Ruin followed in the train of
demonetization. To enrich creditors at
the cost of debtors was the invariable
purpose in the contraction of the cur-
rency. Mr. Voorhees referred derisive-
ly to the Anglo mania which made
Great Britain foremost in certain friv-
olous affairs and matrimonial bargains,
and then condemned the prevailing ten-
dency to bow to that country in all
financial legislation. The senator closed
with a vigorous assertion of the capabil-
ity of the democratic party to deal
not only with this great question, but
also with the tariff, foreign affairs, and
all the important issues of the day.

Mr. Gray (dem., Del.) spoke of the
advantages of a gold standard. It was
the natural standard of the world, and
mere legislative whim or fiat could not
change the natural law. The senator
controverted the assertion that cheap
prices had followed the demonetization
of silver. He asserted that invention
and modern methods had brought about
this reduction of prices. He contended
also that low prices were for the bene-
fit of the masses of the people.

Mr. Call gave notice of a speech to-
day on the bond bill.

Mr. Palmer presented resolutions of
respect to the memory of the late Rep-
resentative Remann of Illinois, and as a
mark of respect the senate at 5:45 ad-
journed until today.

IN THE HOUSE.

Diplomatic and Consular Appropriation Bill Passed.

Washington, Jan. 29.—During the
morning hour in the house Tuesday
several important bills were passed by
unanimous consent. The house then
went into committee of the whole (Mr.
Grosvenor of Ohio in the chair), and
took up the consideration of the diplo-
matic and consular appropriation bill.
The bill carries \$1,370,586, being \$98,600
in excess of the appropriation for the
present fiscal year.

Mr. Hitt, chairman of the committee
on foreign affairs, explained that the
bill was practically a re-enactment of
the present law, with such increases as
the service required. An amendment
was adopted including in the \$98,600 ap-
propriated for the relief and protection
of American seamen in foreign coun-
tries, similar provision for American
seamen on the coast of Alaska. Without
further amendment, the bill was passed.

Mr. Grow (rep., Pa.) had read in open
house a bill appropriating \$100,000 to
aid in the establishment of schools for
teaching articulate speech to deaf chil-
dren.

Mr. Hadley (rep., Ill.) then announced
the death of his predecessor, Frederick
Remann, from the Eighteenth Illinois
district, July 14, 1895. Appropriate res-
olutions were adopted, after which, at
2:35 o'clock, the house, as a further
mark of respect, adjourned.

The Fight for Stanford's Millions.

Washington, Jan. 29.—Argument was
begun in the Supreme Court of the
United States Tuesday in the case of
the United States vs. Mrs. Jane L. Stan-
ford, widow and executrix of the will
of the late Leland Stanford. The
government seeks to recover from the
Stanford estate Mr. Stanford's prop-
erty of alleged individual liability
for the bonds of the Central Pacific
Railroad Company. Over \$15,000,000
is involved. The argument for the gov-
ernment was begun by Assistant Attorney
General Dickinson, who spoke for about
two hours. Mr. Choate followed in
Mrs. Stanford's behalf.

For the President's Signature.

Washington, Jan. 29.—The con-
current resolution requesting the presi-
dent to communicate to the parties to the
treaty of Berlin the wishes of congress
that those powers should intervene to
protect the Christians in Turkey
reached the state department Tuesday
and was sent over to the executive man-
sion for the consideration of the presi-
dent.

KELLER MURDER TRIAL.

Opening Statements of the Lawyers Take
Up the Second Day.

Terre Haute, Ind., Jan. 29.—The se-
cond day's work in the Keller murder
trial consisted of the two opening
statements, for the prosecution by
Prosecuting Attorney Maxwell of Parke
and Vermillion counties, and for the de-
fense by ex-Congressman John E. Lamb
of this city. Mr. Maxwell contended
that while the evidence would be
largely circumstantial it would prove
that the Kellers had killed Clara
Shanks and thrown her body into the
creek. Mr. Lamb, for the defense, laid
special stress on the fact that the cor-
oner at the first examination found that
death was the result of drowning. He
also called special attention to the fact
that four reputable physicians exam-
ined the dead girl on the morning of
the funeral and found no external
marks of violence on the body. Only
one witness was examined yesterday—
Mrs. Elizabeth Shanks, mother of the
dead girl. She told the story of the
trouble with the Kellers and the girl's
disappearance. After her direct ex-
amination was ended court adjourned
till to-day.

Germany Threatens Venezuela.

New York, Jan. 29.—A special to the
World from Caracas, Venezuela, says:
"A Paris cable confirms the news that
Germany will demand immediate pay-
ment of the railroad debt. It is re-
ported that a German squadron now at
Havana will enforce the demand."

CUBAN VESSEL SUNK OFF LONG ISLAND

FILIBUSTERING EXPEDITION IS LOST AT SEA.

The Steamer J. W. Hawkins, Carry-
ing Guns and Ammunition for the
Cuban Insurgents, Wrecked Early
Monday Morning—Some of the
Party Known To Be Lost.

Vineyard Haven, Mass., Jan. 29.—
The steamer J. W. Hawkins, recently
purchased at Baltimore for an alleged
Cuban cruise, and which sailed from
New York last Saturday night, having
on board between seventy-five and one
hundred men, bound, it is claimed, to
join the Cuban insurgents, was wrecked
off Long Island early Monday morning.

Particulars of the wreck of the Hawk-
ins gleaned from the men by the offi-
cers of the rescuing vessel show that the
steamer sailed from New York Satur-
day morning ostensibly bound to Bermuda
on a winter excursion. She carried,
however, about eighty men, mostly
Spaniards, a cannon, and several hun-
dred pounds of ammunition. It was
intimated that several wealthy Cubans
were in the party.

Early Monday morning they ran into
a northeast gale and the heavy cross
seas which swept the steamer caused
her seams to open, and she began to fill
rapidly. Signals of distress were set,
but before those on board had time to
do more than clear the boats she went
down, about sixty-five miles southeast
of Sandy Hook lightship.

The schooners Leander V. Beebe, Al-
icia B. Crosby, and Helen H. Benedict
had seen the Hawkins' signals, and im-
mediately bore down on her. The crew
and passengers had already taken to
the boats, and were picked up with
much difficulty on account of the gale
and high seas. The Benedict picked up
twenty-five men, among them being
the steamer's first officers and steward.
The Crosby saved thirteen out of
twenty-three in another boat, but the
other ten were unable to paddle the boat
in the rough seas and were lost. The
rescued men were nearly exhausted.
The Beebe succeeded in rescuing those
in the other boats, but she put back,
probably for Delaware breakwater or
some other middle Atlantic port.

New York, Jan. 29.—Jose C. Hernan-
dez, a Cuban who was on board the
steamship J. W. Hawkins, tells the fol-
lowing story: "We left New York on the
Hawkins last Saturday night. The
steamship belonged to the Cuban rev-
olutionary party, having been pur-
chased recently by them for filibus-
tering work against the Spaniards. We
put out quietly in the dead of night,
and in a few minutes were steaming for
the sound. We ran smoothly enough,
and all the next day. We had no trou-
ble until 3 o'clock Monday morning.
At that time the sea was beginning to
get pretty rough, and the engineer
asked for help. He said the engine
room had sprung a leak and that the
pumps were choked up. Two men
from the revolutionary party were
detailed to assist in bailing the engine
room out with buckets. Later more
men were detailed for the same pur-
pose, but the water kept gaining on
them. We could not get the water out
of the engine room as fast as it came
in, and the sea was getting rougher all
the time. At last the water came into
the engine room so fast that Capt. Hall
told us to lighten the ship by throw-
ing over bags of coal. We threw it over
as fast as we could, but it did not seem
to do any good. Then we began to throw
over the cases of arms and ammuni-
tion. There was over \$80,000 worth of
arms alone. We had two Hotchkiss
guns, 1,200 Remington and Winches-
ter rifles, and 1,000,000 rounds of am-
munition. In addition to this there
were 3,000 pounds of dynamite and a
lot of raw material for making heavy
explosives. All these things we threw
into the sea. We worked all night,
and when daylight came we had thrown
all of the cargo and coal overboard.
Still the water continued to gain on us
in the engine room, and at last it put
out the fires."

"At intervals we burned rockets and
fired signals of distress, but it was not
until 8 o'clock in the morning that we
saw another vessel."
The story is to the effect that the rev-
olutionary party had recently purchased
the steamer in Baltimore. She had been
engaged in the fishing trade, and was
of 125 tons net and 188 tons gross. She
was commanded by Captain Hall, and
her mate was C. H. Crowell. In com-
mand of the revolutionary party was
Calisto Garcia, and his son, Carlos
Garcia, was second in command. The
reports at Cuban headquarters are con-
flicting as to whether every one escaped
or not.

It was not until 7 o'clock at night
that about a score of newspaper men
succeeded in getting an interview or
statement from Minister Palma per-
sonally. He declined to say anything
about the wreck of the Hawkins, or
whether he had received a dispatch
from Woods Holl, Mass., and from Bos-
ton, that those of the revolutionists who
had not been taken to New York had
arrived safely there. He did admit,
however, that he had received a dis-
patch from Boston. He also admitted,
after a great deal of pressure, that a
young man had called upon him who
was in need of financial assistance, and
that he had given money to him. What
his name was, or what he wanted the
money for, Minister Palma would not
state.

NO COURT EXPENSES IN A NEGRO'S CASE

JUDGE LYNCH SITS IN WEST VIRGINIA.

Murderous Negro Meets His Death at
the Hands of a Mob—Sheriff at
Jefferson, Iowa, Afraid of a Lynch-
ing—All Quiet at Sullivan, Ill., in
Scenes of Disorder.

Huntington, W. Va., Jan. 29.—Alex
Jones, a negro, boarded a train on the
Norfolk and Western railroad at Key-
stone Monday night. He was drunk
and shot promiscuously into the crowd
of car. He killed one man and fatally
wounded two others. Yesterday his re-
mains were lowered from a limb of a
tree and buried. He had been lynched
and his body riddled with bullets.

Passengers say that Jones, who had
frequently been connected with mur-
ders, boarded the north-bound passen-
ger train and entered the smoking car.
The negro was intoxicated and flour-
ished revolvers in both hands. Conduc-
tor McCullough attempted to quiet the
mob, but his efforts proved futile. He
began firing from both pistols and was
stopped only when Brakeman Rankin
Holmes ran up behind him and felled
him to the floor with a heavy poker.
Nine shots in all were fired by Jones.
One ball penetrated the abdomen of
W. S. Strauther, postmaster at Elk-
horn. Another ball entered the left side
of Conductor McCullough and but little
hope is entertained for his recovery.
Peter Rice, colored, is thought to be
fatally shot, and the plucky brake-
man received a ball in the left shoul-
der from Jones' revolver after he struck
the blow. A detective of the road, who
was in another coach, rushed in and
took charge of the prisoner.

The train then pulled into Welch, the
end of the division, which was only a
few miles north, and the prisoner was
placed in jail. A mob began forming,
and as a local passenger was soon to
leave, the officials hustled the murderer
through town in disguise and placed
him on this train with a hope of get-
ting him through to this city. The in-
furiated mob, however, held the train
until arrangements were perfected. A
rope was placed around Jones' neck
while he was on the train, and he was
marched up a steep hillside one-fourth
of a mile away. The negro pleaded for
mercy, but without avail. The rope
was securely fastened, and he was
drawn up until his limbs dangled in
the air. The mob, before leaving, rid-
dled the dead form of the negro with
bullets. The body was left hanging
until some colored men cut it down.
The remains were buried without cere-
mony within fifty yards of where the
lynching occurred.

SHERIFF FEARS TROUBLE.

Iowa Murderer May Be Dealt With by
a Mob.

Jefferson, Iowa, Jan. 29.—Doctors say
that John Brown, Jr., one of the vic-
tims of the battle at Paton Sunday
night, cannot possibly recover, having
been shot through both lungs. The el-
der Fleck, who planned and headed the
attack upon the Brown family, was re-
moved to this city yesterday morning
by the sheriff, because trouble is feared
from the people in the vicinity of
Brown's home. There are ugly mut-
terings from that section of the county,
and the sheriff is preparing to protect
his charge in case of an attack, which
is not unlikely if Brown dies. George
Fleck, the 16-year-old son who carried
the revolvers and did the bulk of the
shooting, is under guard at Paton. No
apprehension is felt on his account, as
his father is regarded as responsible for
the tragedy.

Excitement Dying Down.

Sullivan, Ill., Jan. 29.—Everything is
quiet, with no indication of a mob here.
Mrs. Roxy Atterbury is very ill. The
second suspected party is not arrested
yet.

GOWDY THE WINNER.

Elected Chairman of Indiana Republican
State Committee by Acclamation.
Indianapolis, Ind., Jan. 29.—Interest
in the contest for the chairmanship of
the republican state committee ended
at 2 o'clock yesterday morning when
the four doubtful members of the com-
mittee, after spending over two hours
in caucus, announced that they would
vote for John K. Gowdy. Nebeker's
name was not placed before the com-
mittee, and Gowdy was elected by ac-
clamation.

But little interest was evinced in the
contest for secretary. R. M. Seeds, the
retiring secretary, had announced that
he would not again accept office under
Mr. Gowdy, and R. E. Mansfield was
chosen at the suggestion of the chair-
man. The committee fixed May 7 as
the date for the state convention, which
will elect delegates-at-large to the St.
Louis convention and nominate a state
ticket. The district delegates will be
selected March 19. The state commit-
tee adopted a resolution endorsing Gen.
Harrison as the choice of the organ-
ized party of this state for president.
Every member spoke and gave his per-
sonal approval to the resolution.

Springfield, Ill., Jan. 29.—The exec-
utive committee of the Illinois Republi-
can Editors' association met Tuesday at
the Leland hotel. President W. S.
Cathoun presided. It was decided to
hold the next convention immediately
after the republican state convention.

WILL MEET AT SPRINGFIELD.

Illinois Republicans Decide Upon a Con-
vention City—April 29 the Date.

Springfield, Ill., Jan. 29.—Springfield
is the place and April 29 is the time
fixed by the state central committee for
holding the state republican conven-
tion. The vote on the location stood:
Springfield, 13; Peoria, 11. One blank
ballot was cast and two members of
the committee were absent. The basis
of representation was fixed at one dele-
gate for every 300 votes cast for Har-
rison in 1890. Upon this basis the con-
vention will consist of about 1,335 dele-
gates. In addition to nominating a
state ticket, the convention will select
four delegates-at-large to the national
convention, and a lively fight is prom-
ised upon the question of instructing
them for McKinley, as it is supposed
the convention will be in favor of the
Ohio statesman.

Senator George H. Monroe of Joliet
has announced himself as a candidate
for governor. Mr. Monroe is a man of
large wealth and never held any office
until elected state senator two years
ago.

The convention hall filled slowly
Tuesday morning. It was 10:45 before
the chairman rapped for order and
without further talk introduced Dr. E.
B. Rogers of Springfield, who invoked
the divine blessing. Senator David
Little of Sangamon made the address
of welcome. Chairman Jameson then
introduced Senator Cullom, who was
loudly cheered. He made a strong and
patriotic speech, eulogizing the republi-
can party and predicting success at
the coming national and state elections.

The next speaker was ex-Governor
Fifer. He began by naming the candi-
dates for president. The first name
was that of Thomas B. Reed, and ap-
plause greeted the reference. Then
McKinley's name was uttered, and was
enthusiastically received. The names
of Harrison and Allison also received
applause. Cullom's name was men-
tioned last. There was a hearty round
of applause, in which all the delegates
joined.

John R. Tanner represented the
Twentieth district. His speech was
loudly applauded. Ex-Congressman
Mason was also received with enthusi-
asm. Among others who made
speeches were Major Connolly, Senator
R. W. Coon of Waukegan for the sev-
enth district, Colonel A. C. Matthews of
Pittsfield for the sixteenth district, Con-
gressman A. J. Hopkins of Aurora for
the eighth district, Senator H. F. Aspin-
wall of Freeport for the ninth district,
Colonel Jonathan Merriam of Atlanta
for the fourteenth district, Frank A.
Ramsey of Morrison for the tenth dis-
trict, H. H. McDowell of Pontiac for
the eleventh district and R. W. Pilcher
of Watseka for the twelfth district.
This ended the love feast, which ad-
journed at 6 o'clock.

ALIBI FOR HOLMES.

Evidence Showing He Was Not the Mur-
derer of Howard Pitzel.

Indianapolis, Ind., Jan. 29.—Attorney
Bullock has received a letter from
Judge Harvey of St. Louis, saying that
H. H. Holmes was in that city October
2 and 3, and this supplies the missing
link, showing Holmes' whereabouts
from the 1st to the 11th of October,
during which time Howard Pitzel is
supposed to have been murdered in the
tenement at Irvington, near this city.
Mr. Bullock has also found a witness
who saw a stranger in the Irvington
tenement at the time when Holmes was
known to be in Chicago, and the claim
is made that this person was the mys-
terious Hatch, and that Hatch killed
the boy. While this evidence does not
reach the case for which Holmes stands
convicted at Philadelphia, it is claimed
to have an important bearing, inas-
much as it indicates him not guilty of
one of the crimes with which he is
charged.

Ambassador Runyon's Funeral.

Berlin, Jan. 29.—A funeral service
was held over the remains of Theodore
Runyon, late ambassador of the United
States to Germany, at his residence, at
3 o'clock Tuesday afternoon. Only the
family and the officials of the embassy
were present. The official ceremonies
will take place at Castle Mondion
Thursday. The French ambassador,
M. J. Herbet, will act as doyen of the
diplomatic corps, and the foreign office
will be largely represented.

Amendment to Financial Bill.

Washington, Jan. 29.—Senator Teller
Tuesday offered the following amend-
ment to the pending financial bill:
"That after July 1, 1896, all bank notes
issued by national banks shall be re-
deemed in coin when presented to the
national banking associations issuing
the same, and any such national bank-
ing association failing to redeem its
notes on presentation shall be dis-
solved."

Vicksburg Park Favored.

Washington, Jan. 29.—The house
committee on military affairs decided
Tuesday to recommend the creation of
a national military park on the Vicks-
burg battlefield, and will report to the
house the bill introduced by Mr. Catch-
ings. The park contemplated will em-
brace 1,200 acres where the opposing
armies were lined at the siege of Vicks-
burg. The bills provides for a commis-
ion of three to outline the site, to be
appointed by the secretary of war, and
a secretary and a historian. The cost
of the land is limited to \$50,000, but
the entire expense of the park, if the
project is carried out, will be \$500,000.

C. & N.W. PAYS \$10,000 FOR A WOMAN'S FOOT

MISS CAROLINE SWASEY RE-
CEIVES BIG DAMAGES.

She Sued for Twenty Thousand Dol-
lars, But the Case Was Settled
Out of Court for One-Half the
Sum—Kenesha's Opera House in
Ashes.

Oshkosh, Jan. 29.—The damage
case of Miss Caroline Swasey against
the Northwestern railway for twenty
thousand dollars was settled out of
court today. The stipulation is said
to be for ten thousand dollars. The
plaintiff had one foot cut off in an ac-
cident.

Kenesha Opera House Burned.

Kenesha, Jan. 29.—Fire broke out
in Rhodes' handsome new theatre just
after a ball early this morning. The
building, scenery and all the furnish-
ing goods were entirely destroyed.
The loss will reach nearly fifteen
thousand dollars.

THE CANADIAN ELECTIONS.

Government Candidates Rejected in Sev-
eral Constituencies.

Ottawa, Ont., Jan. 29.—It has become
apparent that members of the Dominion
cabinet are more widely divided than
ever over the bill they have promised
to introduce this session restoring Ro-
man Catholic schools in Manitoba. The
four elections which have taken place
in the past month have resulted each time
in a victory for the liberal party. Three
of them were held in strongly Roman
Catholic constituencies, yet in each
case the government candidate, pledged
to remedial legislation this session, was
rejected and the liberal candidate in-
dorsed, who supported Laurier's policy
urging the appointment of a commis-
sion to investigate before remedial
legislation is attempted. One fact has
been strongly brought out in the elec-
tion held in Charlevoix Monday, in
which, in defiance of the Roman Catho-
lic bishop's mandate, read Sunday from
various Catholic pulpits, to secure the
defeat of Angers, the candidate support-
ing the liberal leader was elected. In
this result emphasis is given to the now
prevailing opinion that the Roman
Catholic church in Canada is rapidly
losing its grip upon the electorate.

WANT RECOGNITION.

Women Suffragists Present Their Claims
for the Ballot Box.

Washington, Jan. 29.—The senate
marble-room was completely filled yester-
day by a delegation of ladies from the
National Equal Suffrage Associa-
tion, who appeared before the senate
committee on woman's suffrage to pre-
sent their plea for recognition at the
ballot-box. Senators Call and Peffer
were the only members of the commit-
tee present. The speakers were pre-
sented by Dr. Annie Shaw. None of the
speeches was of more than five minutes
duration. The speakers all dwelt upon
the rights of the female sex to equal
participation with men in shaping leg-
islation, and almost all of them re-
ferred to the injustice of taxing women
without allowing them to vote. Mrs.
Thompson, of the District of Columbia,
declared that there were 25 per cent
more of educated girls than of educated
boys. Mrs. Hubbard indirectly rasped
the committee by declaring that the
ladies had shown two of the virtues of
statesmanship today, those of punctuality
and patience, the reference being to
tardiness or absence of the members
of the committee. A delegation also
visited the judiciary committee-room
of the house and made speeches to the
committee.

ST. PAUL LOSES IT.

G. A. R. Encampment Will Not Go to the
Minnesota City.

Chicago, Jan. 29.—Members of the
Grand Army of the Republic will not
attend an encampment at St. Paul in
September. This was settled yesterday
by the refusal of the Western Passenger
Association to grant a thirty-day time
limit on round-trip tickets. Gen. Walker
in an interview said: "It is intimated
to me the action of the association is in
the nature of an ultimatum. My action
in the matter is blocked out for me by
the action of the Louisville encamp-
ment. It made a mandatory order for
me to locate the encampment elsewhere
than at St. Paul should we be unable to
secure satisfactory rates and time limit
at that place. I shall now call a meet-
ing of the executive committee of the
council of administration and let them
select a new location. Where this will
be I cannot, of course, say. Three
points were considered at Louisville.
These, in the order of preference, were:
St. Paul, Buffalo, and Denver. The two
latter points are outside Western Pas-
senger Association territory. Should
the executive committee still think as it

Illinois Prohibitionists Called.

Champaign, Ill., Jan. 29.—George W.
Gere, chairman of the state prohibition
committee, has issued a call for the
state convention to meet at Representa-
tative Hall in the state house in the
city of Springfield, Ill., on Wednesday,
the 8th day of April, 1896, at 10 o'clock
a. m., for the purpose of electing mem-
bers of the state committee, the nom-
ination of presidential electors, the can-
didates for state offices and clerks of
the supreme and appellate courts.

MINISTER'S NAME USED AS A DECOY

ROCK COUNTY PASTOR WARNS THE PUBLIC.

Rev. G. Hammond Refuses To Be Made a Party to a Scheme for Raising Funds for "A Young Man Who Desires an Education"—News of the County.

Emerald Grove, Jan. 28.—Rev. G. Hammond of the Congregational church, has made public the following card:

TO WHOM IT MAY CONCERN—I find that my name has been used without my consent in connection with a letter scheme asking for money for a certain young man who wishes to study for the ministry. As I do not endorse the scheme nor have any sympathy with the affair I wish any to know it who may receive such letters.

G. HAMMOND.

Robert Lilburn will ship this week to Graham, N. C., a number of prize Shetland ponies. They have been purchased by J. R. Scott, owner of the far famed John R. Gentry. The ponies are all beauties and will make the journey in a buffeted Burton palace stock car. This sale illustrates again that Mr. Lilburn is owner of the champion herd in America. After February 1st the butter factory here will be run on the cooperative plan. Articles of incorporation have been drawn up. In the future farmers will enjoy the profits themselves. The literary social was well attended last week. Hope the sociables will be continued. Thomas Jones has sold two cars of barley to Jefferson brewers. Oscar Hanson attended the Y. M. C. A. convention at Stoughton last week. For thirty five cents you can get a choice Japan tea at Gillies & Jones. C. D. Fitch is busy filling the ice house in connection with the butter factory. The friends and schoolmates of Miss Libbie Davis gave her a surprise party last Thursday evening. It was a merry company, and everybody had a good time. Patrons of this postoffice wish to thank John Smith for securing a mail driver who is always prompt, and who distributes the rural delivery with such efficiency. A few of our neighbors attended the Burns gathering in Janesville last Friday night.

MILTON JUNCTION AND THE FLAG

A Correspondent Thinks Old Glory Will Never Cloak Self-Seekers.

Milton Junction, Jan. 28.—There were some things we learned at the Farmers' convention. One was that there is one man who thinks "we can make too much" of our glorious flag. And then there were a few, a very few, people who cheered that sentiment, though if ears did not deceive nearly as many hissed as cheered. Another is that farmers find lots of fault with their law makers, yet year after year vote the same men into office. It is really too bad that Milton Junction does not have a hall large enough to accommodate the crowds that attend the Farmers' convention. The ladies of the M. E. church took in over fifty dollars at the dinner at the church during the convention. B. Thomas, of Albion, was a caller in town Monday. Undertaker Oom was called to Milton Sunday night by the death of Thomas Davidson. Charles Clarke and family returned from a week's visit at Walworth on Monday. Ed. Holston has been under the weather for a few days, but is out again. The meetings at the Seventh Day Baptist church continue during the week. Rev. Witter expects to be here every evening this week. "Blind" Will Crandall preached Sunday evening, and Mr. Snitka, another blind gentleman from Janesville, sang during the evening. The meetings are very interesting and helpful. Ira Humphrey and sister, of Albion, visited Miss Edna Keith, of this place, last week. Bert Button is now at work for a wholesale tobacco firm in Michigan. He will have to cover southern Wisconsin and part of Illinois. Mr. Hall, of Whitewater, visited his daughter, Mrs. I. P. Hineckley last week and got acquainted with his new grandson. Mrs. Ina Crandall, of Mazomania, came down Friday night to visit with her brother, George Kelly, who is here for a few weeks' visit. Dr. Hall reports considerable sickness around the county. Frank Gray has so far recovered from his present attack of rheumatism as to walk with a cane.

GOSSIP FROM INDIAN FORD.

Coming and Going of the People of the Village.

Indian Ford, Jan. 28.—Mr. Donovan, of Albert Lea, Minn., was a very welcome caller on C. Hallett's people last Friday. George Lackner and E. L. Ward went to Janesville.

on business last Saturday. Mr. and Mrs. Miles Beliman Sundayed with C. Hallett and family. Ed. Hallett has commenced assorting his '95 crop of tobacco. Paul Savage and Miss Vina, of Cooksville, Sundayed with Mr. and Mrs. E. H. Brown. Mr. Lackner, our enterprising merchant, was in Janesville Saturday. The social given in the Good Templars hall last night for the benefit of the church was a success. Mr. and Mrs. C. S. Thomas expect to go to Adams county soon to visit their daughter, Mrs. A. Allerson. Mrs. E. H. Brown is on the sick list. Dr. Red Wolf made a flying trip to Albion Friday night. Earl Cone is reported as having the mumps.

PARTY AT ROBERT MORE'S HOME

Sixty or Seventy People Met at the Supper Table—Personal.

Fairfield, Jan. 28.—Between sixty and seventy took supper at Robert More's last Friday evening and an enjoyable time was spent by all. The Darlen patrons are many of them bringing their milk to the Fairfield factory. Miss Carrie Dalton of Allen Grove, spent a portion of the week at A. D. Clark's. A "Hard Times sociable" will be given at A. G. Clowes' on Thursday evening, Jan. 31. Anybody wearing jewelry or fine clothes will be fined. Ladies please provide a picnic supper. The menu will consist of pork and beans, brown bread, mush and milk, pumpkin pie, ginger bread, doughnuts, etc., all for ten cents. Augustus Armstrong, of Albert Lea, Minn., is spending the week at his uncle's, A. D. Clark.

RICHARD HARLOW'S PRETTY HAND

A Young Man Who Might Pose in a Beauty Show Almost Anywhere.

The accompanying picture is a photographic reproduction of the hand of Richard Harlow, the handsome

RICHARD HARLOW'S HAND, a young athlete who plays the part of Isabella, Queen of Castile, in Rice's "1492," which will be seen here next Friday at the Opera house. It has been said of Harlow that he is a handsome, athletic, up-to-date young fellow, his impersonation of female roles is the most perfect and artistic we have ever had in this country. When he dons the royal robes of Isabella the illusion becomes so perfect that the oldest theatre goers have been fooled. The above illustration certainly indicates that he literally becomes a queen to his very finger tips.

BATES GOT \$10 JUST IN TIME.

There Was a Balance of Three Cents in The Treasury.

J. W. Bates had his luck with him. After buying a postage stamp last night he had just three cents left, and the question of where he should sleep assailed him. If he were to sit up all night he would want something to read so he called for his mail. The first letter he opened contained a ten dollar money order.

"It was from a man I never expected to hear from, and came just like a Christmas present," said Bates cheerfully, as he started towards the express office to cash in.

Left a Legacy of Good.

But a short while ago a good man died and passed from this sphere of usefulness to a better and higher condition. Those who lived within the knowledge of his kindly Christian life know this well, for none lived more beloved, or died more sincerely mourned than good Father Jansen, of the town of Greenfield. Never did this gentle priest experience greater pleasure than when ministering to the wants of his suffering fellows, and many, indeed, are the instances where afflicted ones have found present as well as permanent relief under his kindly ministrations. One of his remedies, a blood purifying tea, composed entirely of roots and herbs, has proved practically efficacious in all diseases to which the stomach, kidneys, liver, skin or blood are so much prone. This we know and are therefore more than glad that in his thoughtfulness for the suffering of others Father Jansen left these valuable formulas for the benefit of posterity and they are now in the possession of Pharmacist H. H. Hackendahl, of Milwaukee, Wis., who compounds them with the same care and exactness observed during the father's life time.

In pensive mood he sat and pondered. What thought engaged him then? "Wondered. How can I buy good wool?" he murmured. "Why, 'er kind s'r," I stammered: (Polly from his perch.)

MUCH EXTRA FREIGHT COMES FROM JAPAN

JANESVILLE RAILROAD MEN ARE KEPT BUSY.

Additional Crews Kept at Work on the Chicago & Northwestern in Consequence of the Diverting of a Big Share of the Northern Pacific Business This Way.

Extra work has been given to local railroad men by the large shipments of Northern Pacific freight which have been going through on the Northwestern. For some time past and especially within the last six months the great bulk of Northern Pacific freight such as tea, silk and other goods from the sea board has come from St. Paul by the C. & N. W. As this is something outside of the usual line it is all the more noticeable, and besides proving profitable to the Northwestern it has given employment to extra crews and has cut down the waiting list at the Janesville round house materially.

Railroad men say that no pool between the Northern Pacific and the C. & N. W. exists, the business being secured for the Northwestern only by hard work. Formerly the shipments all went by way of Omaha, or via Ashland and Milwaukee. The goods are landed in Seattle by Pacific Line steamships and are carried by the northern route in competition with goods that are landed in San Francisco.

Everybody Talking About It.

Everybody is talking about the great free offer of Dr. Greene's, the most successful specialist in curing nervous and chronic diseases, and who discovered that wonderful medicine, Dr. Greene's Nervura blood and nerve remedy. He makes a specialty of treating patients through letter correspondence, and all who accept his offer are astonished at the marvelous success of this method. His office is at 35 West 14th street, New York city, where he receives and carefully examines every letter sent to him by persons describing their cases and telling him their symptoms. After thoroughly studying each case he answers the letter, explaining the cause of each symptom and telling a sure way to get well and strong. He makes the patients understand exactly what ails them, and tells them all about their complaints, and all this is entirely free of charge. They save the expense of a trip to the city, have no fee to pay, and have the benefit of the best medical advice and consultation. Here is an opportunity for you to get well, reader, you can either accept or reject it. Which will you do?

BORT, BAILEY & Co.

This Is Good News.

It will be news of genuine interest to state that Sousa and his peerless concert band, which numbers about fifty fine artists—accompanied by Miss Myrtle French, soprano, and Miss Currie Duke, violinist, will shortly give a concert in this city on Monday afternoon at 2 o'clock. Sousa is without a peer in the domain of concert band music, and his great band, under his magnetic leadership, is a thing of beauty and a joy to thousands who have heard them.

NOT A PIECE OF BUNCUM.

A friend, English by birth but American by adoption, complains to The Gazette that the United States is undertaking too much when it spreads over the whole American continent. Not at all. This is a very capable nation when it comes to protecting its own interests, and this is all it pretends to do under the Monroe doctrine.

The definition of the Monroe doctrine presented by the senate committee on foreign relations is of a sweeping nature, and includes nearly everything in sight, so to speak; but it contains a clause which materially modifies its general effect in this respect. This important proviso limits the practical application of the doctrine to cases which the United States shall deem "dangerous to its peace and safety." That is to say, the privilege is reserved to consider each instance of the proposed acquisition of new territory on this hemisphere by any European nation according to the special circumstances that may attend it. The meaning of such a reservation is that the United States does not assume the position of absolutely prohibiting the acquisition of American territory by any European power. That would be equivalent to a declaration of virtual authority over the whole hemisphere and we are certainly not ready to take such a stand.

It does mean, however, that nobody is to plant military outposts threatening this country as Gibraltar threatens Spain and the sooner the world understands it the better.

NOT MUCH IN EARNEST.

You hear a good deal about "sound money" democrats these days—nowhere more than in Kentucky where there are nine in the legislature. Just how much reliance may be placed on them is indicated by the fact that all except two of the nine Kentuckians have agreed to vote for Blackburn and fifty cent dollars if any combination can be made by which their votes would elect. The extent of the sincerity of their anti-silverite pretensions can thus be gauged. They oppose a free coinage so long as they think he will be beaten anyhow, but if they see that their votes will elect him they will let him have them. If these men are a fair sample of the Kentucky democratic anti-free coiners their talk against Hardin and Blackburn was very largely cant.

DON'T ATTEMPT TOO MUCH.

The report that the revenue bill will pass the senate in the shape which it had when it left the house, ought to be true whether it is or not. If the bill is made any more protective than it is the only chance which it has of securing executive approval ends. The senate republicans ought to know this. A republican tariff bill can be postponed until it can be enacted. That time will not come until after the election of a republican president and congress this year.

Utah people have been as sparing of mortgages as they have been prodigal with wives. The new state begins her career with 19,816 farms, of which 17,860 are unencumbered. Calamity orators will have a hard time in Utah.

Why couldn't the annual meeting of the Rock County Agricultural society be supplemented by a farmers' convention on the plan followed by the state society?

DELEGATES NAMED BY THE DISTRICTS

CHAIRMAN W. T. VANKIRK RECEIVES INSTRUCTIONS.

Assembly Districts in Rock County Will Name Their Delegates to the State Convention as Usual, and County Convention Will Certify to the List.

A question that has stirred Rock county politicians was settled by a circular from the state central committee this morning. The committee's ruling, addressed to Chairman W. T. Vankirk, of the county republican committee, is as follows:

Milwaukee, Wis., Jan. 28.—My Dear Sir: The chairman and secretary of the State Central Committee are in receipt of inquiries from several sections of the state asking for an interpretation of the resolution recommended by the state convention and formally adopted by the State Central Committee, making the assembly district the unit basis in counties having more than one assembly district, and also asking for instructions concerning the proper course of procedure in electing delegates to the state convention.

In order to prevent misunderstanding, we forward this circular letter bearing upon the subject.

This Applies to Rock.

In all counties having more than one assembly district the unit basis is the assembly district. It was not the intention of the convention and is not the intention of the committee that this shall in any way do away with the holding of the county convention. The construction which the committee places upon the rule making the assembly district the unit of representation in selecting delegates to the state convention is: In counties having more than one assembly district, delegates to the county convention shall be elected from each assembly district; and the said delegates shall divide into assembly district conventions at the county convention and select the representation to which they are entitled as assembly districts; and that the delegates so selected shall be certified to by the chairman and secretary of the county convention to the state central committee as the delegates from the said county.

Assembly Districts Protected.

This interpretation seems to be the only correct one, as the clear intent of the change in the basis of representation from counties to assembly districts is to secure for the individual assembly district the representation to which it is entitled.

In all other cases the county is such unit of representation; that is if the county is an assembly district by itself, or if the assembly district is composed of more than one county, then the county shall by county convention select the number of delegates to the state convention to which they are entitled under the call, and certify, by the chairman and the secretary, the delegates so selected direct to the state central committee.

We never stoop to the old practice of putting bait in the window marked at ridiculously low prices, and then crawl out with regret—we have not your size—but here is something—just as good, act. All we ask is a fair field and no favor; and we will undersell any sale on earth. Frank H. Baack.

MECHANICS' GREEN BELONGS TO BELOIT

JUDGE BENNETT'S DECISION IN THE CASE.

City Held To Be the Legal Possessor, the Property Having Been Dedicated as a Park—Grounds on Which the Case Was Fought—Stay Granted.

The city of Beloit wins in the Mechanics Green case.

Judge Bennett rendered his decision this afternoon.

He held that the Green had been dedicated to the public as a park, by its former owner White, and that the public had such possession that it could hold by limitation.

Judge Bennett granted a stay of proceedings pending an appeal to the supreme court.

The property in dispute covers a little more than a block in the heart of Beloit and is valued at from \$15,000 to \$18,000.

The plaintiffs, E. F. Carpenter and J. W. Bates, were represented by Attorney L. F. Patten, while City Attorney Rood and Jackson & Jackson appeared for Beloit.

Messrs. Carpenter and Bates relied upon the county records to show a clear title to them, without interruption, while the city claimed ownership to the Green by right of user.

USES BETTER COAL ON NEW ENGINES

C. & N. W. IS BURNING EASTERN BITUMINOUS.

Spring Valley Stock Not Good Enough When 167 Mile Run Are To Be Made—Chicago to Baraboo a Hard Pull—Three Janesville Men on the Rack.

Since the Northwestern began running passenger engines through from Chicago to Baraboo a change in coal has been made necessary. As anybody who has ever visited the Janesville coal shed of the C. & N. W. knows, the coal burned heretofore has been the cheapest kind of Spring Valley bituminous. With a through run of 167 miles, however, a better grade of coal must be used, and well selected stock from the east is being shipped in. Only the big express engines will burn this, of course. Spring Valley is good enough for the rest.

Afraid of a Lay-Off.

Three Janesville men are on the anxious seat because of a C. & N. W. wreck at Appleton Junction. Conductor Dennis Grimes and brakeman Richard Trezoning and Jesse McCaffrey, took a freight to Appleton Junction the other day and unoccupied their caboose so near the main track that it was "cornered"—that is a passing train caught the corner of the caboose and trouble followed. The caboose was wrecked and was sent to the Chicago shops. In the meantime the men are wondering what the result will be.

PARKS ON BATTLEFIELDS.

How Easily a Commendable Thing May Be Overdone.

Secretary Lamont in his last annual report warns congress that the business of creating national parks out of the battlefields of the war may be overdone and involve the country in a heavy permanent expense for their proper maintenance, says the Philadelphia Press. There is force in this caution. There was an evident propriety in making a national park of Gettysburg, which was the turning point of the rebellion. Chickamauga and Chattanooga mark another critical struggle and the national park there well deserves all that has been spent upon it. Congress is committed to the Shiloh battlefield park and there is a strong movement to establish a park that shall include the ground occupied in the important movements that resulted in the fall of Vicksburg.

A bill has been introduced in this congress to establish a national military park at the battlefield of Stone River. The battle of Stone River, or, as it is more commonly called, the battle of Murfreesboro, was a bloody battle, bravely fought and bravely won. But the forward movement of which it was a part and a feature culminated within a year in the battle of Chattanooga. The same troops to a large extent fought at Chickamauga and Chattanooga that were engaged at Stone River. We do not understand the importance of Rosecrans' great victory, but if Tennessee is to have three national parks commemorative of the battles of Shiloh, Stone River, and of Chickamauga and Chattanooga, how can the claims of at least a score of the great battles of the civil war be denied a like commemoration.

Those who fought in those battles on either side are, of course, anxious to have the fields set aside as parks and the lines of battle and the positions of commands properly marked. The location in which they are situated all want the local advantage of a national park established among them. But their interested persuasions ought not to weigh. Congress should take into consideration the whole scene of the late civil strife and decide which, if any more, battlefields shall be specially distinguished by being taken under national care. The relative importance of the battle and the tactical interest of the struggle should determine the question of the dedication of the battlefield as a park and not the pressure of localities and the importunities of the survivors of particular battles.

FACTS ABOUT THERMOMETERS.

Sensitive Instrument Which Registers Heat from the Moon.

To tell whether a thermometer accurately does its work, invert the instrument, says the New York World. If the mercury does not fall to the end or if it breaks into several small columns the thermometer contains air and is inaccurate. If perfectly made the slender thread should fill the tube or break off at the bulb and fall to the other end of the tube.

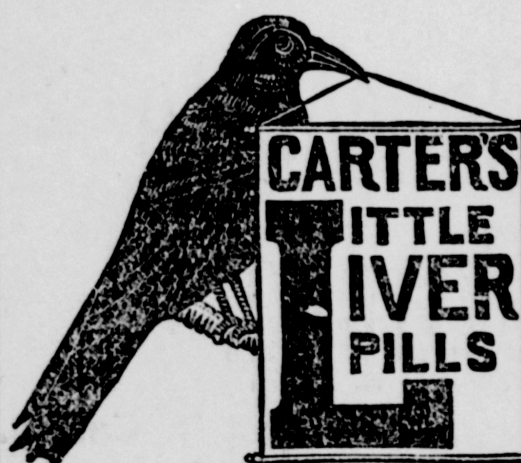

There is another interesting fact about thermometers. Nine persons out of ten think the mercurial column round, but that is not the case. The thread of mercury in thermometers is flat. If it were round the column could hardly be seen, for the opening of the tube is as fine as the finest thread. Some eight of ten years ago a Boston manufacturer introduced a scheme of coating the back of the tube with white sizing. That makes the column of mercury stand out clear and distinct.

Thermometers are cheaper and better than ever before. You can now buy a heat marker for 25 cents but a first-class instrument will cost you \$2. A cheap instrument is like a cheap watch—it is unreliable. The reason for this is that a perfect thermometer has a scale of its own. A cheap thermometer is made on guess work. Hence you see a difference of two, three or five degrees between thermometers in the same locality on the same day.

The most sensitive heat marker is the Crookes. It consists of four arms suspended on a steel pivot, rotating like a miniature wind gauge, and the whole affair is inclosed in a glass tube from which the air has been exhausted. The light of a candle one or two feet away causes the arms to rotate. Quite as sensitive is the thermopile, which is used to detect the faint rays of heat transmitted from the moon and stars to this cold world.

Lighting the Kiel.

The Kiel canal, recently opened to commerce, is lighted throughout its entire length of sixty-one miles by twenty-five candle-power incandescent lamps placed about 500 feet apart on both sides of the canal.

Two Venezuelan Commissioners.

Of the members of the Venezuelan commission all are very well known to the public, with the possible exception of Messrs. Gilman and Alvey. Daniel C. Gilman, president of Johns Hopkins university, is well qualified for the task before him. He is particularly familiar with the career and public ut-

Alvey, chief justice of the court of appeals of the District of Columbia, is a native of Maryland and is about 60 years of age. He has been an active Democrat and a lawyer for years. After holding several minor offices he became chief justice of the court of appeals of Maryland and resigned that high office to accept his present seat on the federal bench.

Cape Colony's New Premier.

Sir John Gordon Sprigg, who has once more been appointed premier of Cape Colony to succeed Cecil Rhodes, is now serving his third term in that office. When he went to South Africa 30 years ago, he left London a poor newspaper reporter, lacking health and fortune. In the new land he found both. He became success-

sively a member of the Cape Col. Sir J. Gordon Sprigg, only assembly, colonial secretary, treasurer and premier. He is 66 years old. Sir Gordon is a conservative man and well liked by the Dutch.

A Trio of Josiah Quineys.

Josiah Quincy of Quincy, Mass., is the third mayor that Boston has had who has borne that classic name. The first Mayor Quincy was a great-grandfather of the present mayor, and his municipal sway began in 1823. In 1846, another Josiah Quincy, son of the original Josiah, was elected mayor, and the present Josiah is his grandson. The present mayor is an ex-congressman and has made a fortune out of street railways. He is a young man, good looking and unmarried.

HE CAME IN.

Jack Potpourri Successful at a Game Other than Hearts.

"He is coming in!"

Hannah Hopewell pressed the tip of her turned-up nose against the window pane of the parlor window as Jack Potpourri passed by.

"He is coming in," she murmured, as he paused a moment and waved his hand to her.

Just then a stranger stepped up, slapped Jack on the shoulder and whispered something in his ear, says the St. Louis Post-Dispatch. Jack nodded joyously, tipped his hat to Hannah and passed on into the night.

Chapter II.

"He's coming in!"

The air is blue with tobacco smoke. A bright light streams down upon a green-cloth covered table on which are little piles of red, white and blue celluloid disks about the size of a half-dollar. Five eager-eyed young men are seated around the circular table, in the center of which is a big heap of the disks. Each man clutches convulsively five cards. Jack Potpourri is one of the players. He hesitates, scans his cards closely and flips a blue chip into the center.

"He's coming in," murmured each of the others with ill-disguised glee.

Chapter III.

Next morning at 5 o'clock Jack was tossing restlessly on his couch at home. "I wonder who Jack brought home with him last night?" said his mother as she listened outside her darling boy's bedroom door. "I heard voices."

"Another blue—one harder—give me a fresh stack of blues—and another," drowsily mumbled Jack.

His mother softly opened the door and said:

"Jack, I was coming in—"

"Coming in?" he repeated in his sleep. "What cher got? That's good!"

Chapter IV.

One year has elapsed since Hannah Hopewell pressed her pretty nose against the parlor window-pane to see if Jack Potpourri was coming in.

He came in to stay for she is now Mrs. Potpourri.

Every Saturday night Jack has a party of five at his home. He plays with marked cards and seldom remarks "That's good."

There's nothing the matter with Hannah, either, for she divides the spoils with Jack and her heart beats with delight whenever she hears the other fellows mutter as they glare at Jack. "He's coming in!"

CAT AS A DETECTIVE.

Are to Be Used as Plumbers to Detect Leaks.

A writer in the Sanitary Era points out some simple methods by which the plumbing of a house may be thoroughly tested. The calling into service the delicate sense of smell possessed by the domestic cat is ingenious. Nothing need be said of the importance of making frequent tests. Not only at the beginning, but at least once a year ever after all the pipes and joints should be tested for leaks by plugging up the mouth of the house sewer or drain and filling the whole system with water by the ventilating pipe at the roof. Leaks, if any exist, will then manifest themselves by the gradual lowering of the water at the top of the filled ventilator pipe and will locate themselves by wetting the premises, which should be at all points open to inspection for this purpose. If in that case no leak should appear within the house and yet the test water should lower, the defect is in the drain, which will rapidly create a pestilent condition in the soil near the house if not remedied. Obstructions, however, may possibly frustrate the water test, or the peppermint test, and this should be guarded against by particular tests from floor to floor. If the pipes are free the pouring of a little oil of peppermint into the ventilating pipe gives a very delicate test of leaks by its strong escaping odor. But as this may not be definite enough as to the locality the house cat may be employed as a detective, by using instead the oil of valerian or "catnip," which the creature's nose will locate, infallibly, if the least aroma of her favorite perfume transpires through the joints.

More About Concentrated Fuel.

A French naval engineer named d'Humy has invented a pressed oilcake for use as fuel on ocean steamers. It is not affected by temperature, is smokeless and odorless, cannot evaporate or cause explosion and burns only on the surface, giving out intense heat and leaving only from 2 to 3 per cent of ash. A ton of this fuel is equal to thirty tons of coal and costs between \$5 and \$10. "If the half of this story is true," says the Cincinnati Price Current, "and M. d'Humy really has got a substitute for coal which is less dirty, bulky, and costly, while equally safe and powerful, he has opened the way to all sorts of marine possibilities. But discoveries of this kind have been made on paper a good many times before and it will be well to await results before growing enthusiastic."—Detroit Evening News.

A Soldier's Kit.

Every British soldier on joining the army is given a free kit, composed of such necessities as a knife, fork and spoon, brushes, towels, shirts, socks, etc., and also a great-coat, cape and head-dress, according to the particular branch of the service he may join, but the issue of the clothing depends on the special costume worn by the corps to which the man belongs.

A Tailless Horse.

In a stable on Western avenue, New York City, is a horse without a tail. He is never driven because people don't like his looks. He had no tail when he was born.
